POARDMAN'S PATENT IMPROVED STEAM BOXER AND FURNACE—The Patentice is now prepared to sell single or territorial rights to
use the above named improvement. Rocent experiments
have demonstrated that this form of Boiler effects a saving of one-half the fuel required to run the best Cylinder
Boiler with return flues, and about 40 per cent of the
amount used by Locomodive Boilers. The heat is so thoroughly applied to the water that the temperature in the
chimney is reduced below 140. The smoke and combinistble gases are cossumed within the farmace. The refuse gas
metantly extinguishes fame or sparks, so that all danger
from sparks is avoided. This Boiler is very compact in
form occupying less space than any other of like power.

CERWINGMACHINES—CAUTION.

SEWING MACHINES—CAUTION.—

SEWING MACHINES—CAUTION.—
The subscribers, owners of the ROTARY SHUTLE MACHINE, patented Oct. 1818, hereby Caution the Public Against purchasing or using Machines which infringe upon fair patent, as they will prosecute to the extent of the faw all such hiringments.

Our machines are now offered for sale for the first time. They have been in use in this city for one year. One firm has made ten thousand dozen Gloti and Plasti Caps. Several other companies have employed them very profusly in making clothing, carpet and grain bags, and for other purposes. There are a number new to use at the factory of It. W. Bink's X. Co. Elim, corner of Canalet, where those wishing to purchase are invited to call and see them in operation. Mesers, H. W. B. & Co. are authorised to make sales of Rights or Machines for use in this city.

These machines are so easily managed, that a child of it years of age has kept seven machines (which are propelled by steam and employed in making bags) in good order for some months past, attending at the same time to the running of her own machine and denign while it his work of four actuals if sewing by band.

These machines can be driven by band, treddle, or steam power. To persons wishing to make an experiment before buying, a machine would be rented at a moderate price. We confidently assert that those are the only machines of the machines now in operation, we repeat our caution against infringments, which will certainly be prosecuted.
